

IE7425-Project Problem Solution

BY

Jyothirmai Nirdala

Seyedeh Shaghayegh Rabbanian

Venkata Mounika Chithirala

First of all create a database in Management studio and create a table which contains the following attributes:

```
CREATE DATABASE IE7425ProjectDataBase
use IE7425ProjectDataBase
GO
```

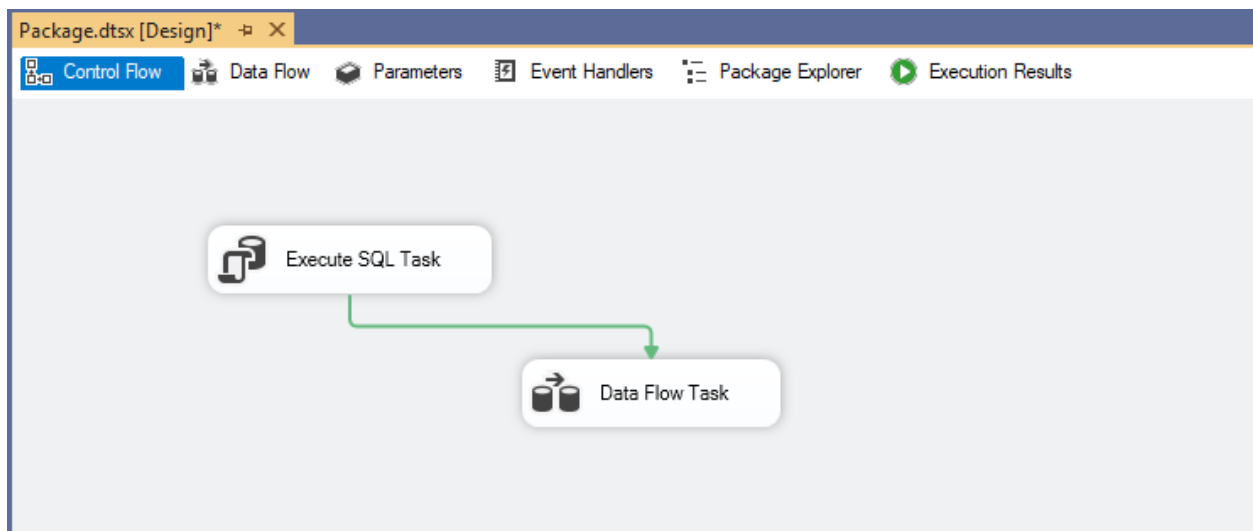

```
IF EXISTS (SELECT * FROM INFORMATION_SCHEMA.TABLES WHERE TABLE_NAME='CrimeData')
DROP TABLE CrimeData
GO
```

```
CREATE TABLE CrimeData(IncidentID varchar(20) Primary key ,
CrimeDate date NULL,
CrimeCategory varchar(50),
Crimenname varchar(250),
City varchar(250),
Zipcode varchar(10),
Place varchar(250),
Street varchar(250),
latitude decimal(12,10),
longitude decimal(12,10),
DistrictName varchar(100)
)
```

Visual Studio:

Open Visual studio and create a new “Integration Services” project.

In control flow task add Execute SQL Task and a Data Flow Task and connect them:

Open Execute SQL task and make a connection to your database by using connection and then write a SQL Statement which is: DELETE FROM dbo.CrimeData

Execute SQL Task Editor

Configure the properties required to run SQL statements and stored procedures using the selected connection.

General

Parameter Mapping

Result Set

Expressions

General

Name	Execute SQL Task
Description	Execute SQL Task

Options

TimeOut	0
CodePage	1252
TypeConversionMode	Allowed

Result Set

ResultSet	None
-----------	------

SQL Statement

ConnectionType	OLE DB
Connection	HS-ENGL-J1231G2\SQLEXPRESS.IE7425Proje
SQLSourceType	Direct input
SQLStatement	DELETE FROM dbo.CrimeData
IsQueryStoredProcedure	False
BypassPrepare	True

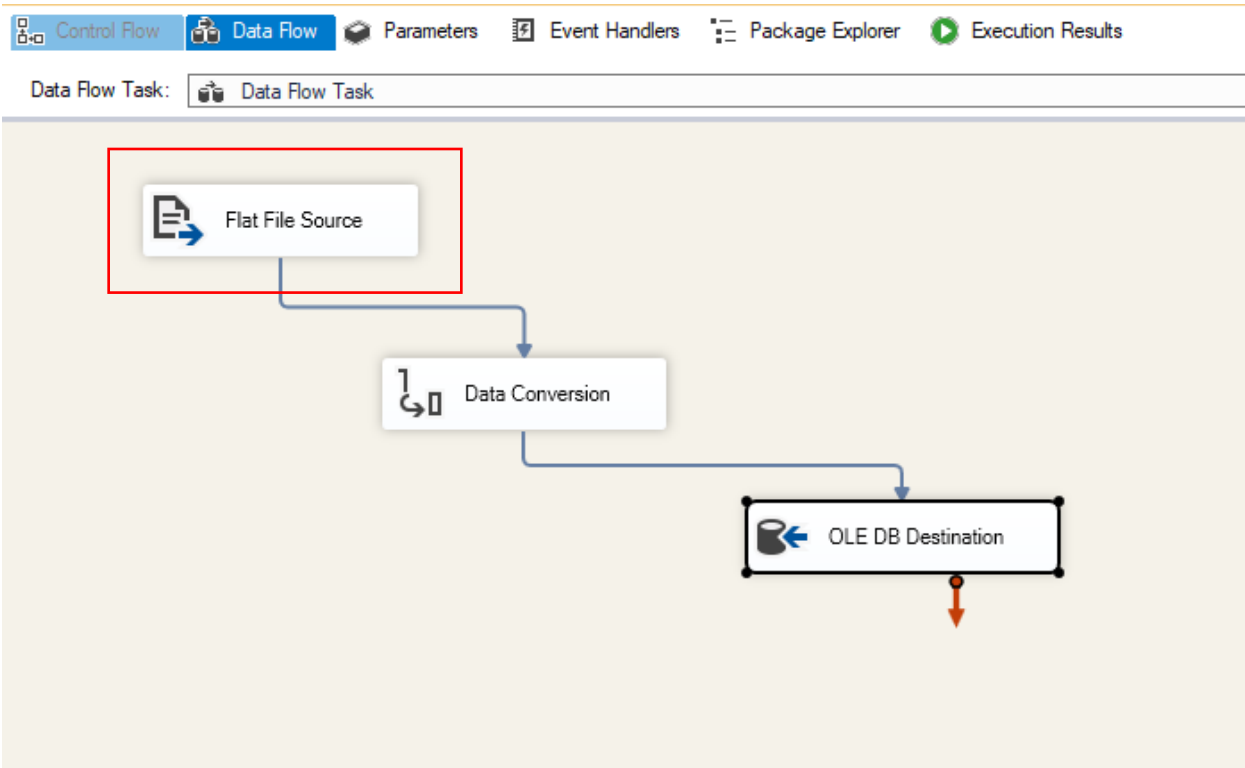

Connection

Specifies the connection used to access the data.

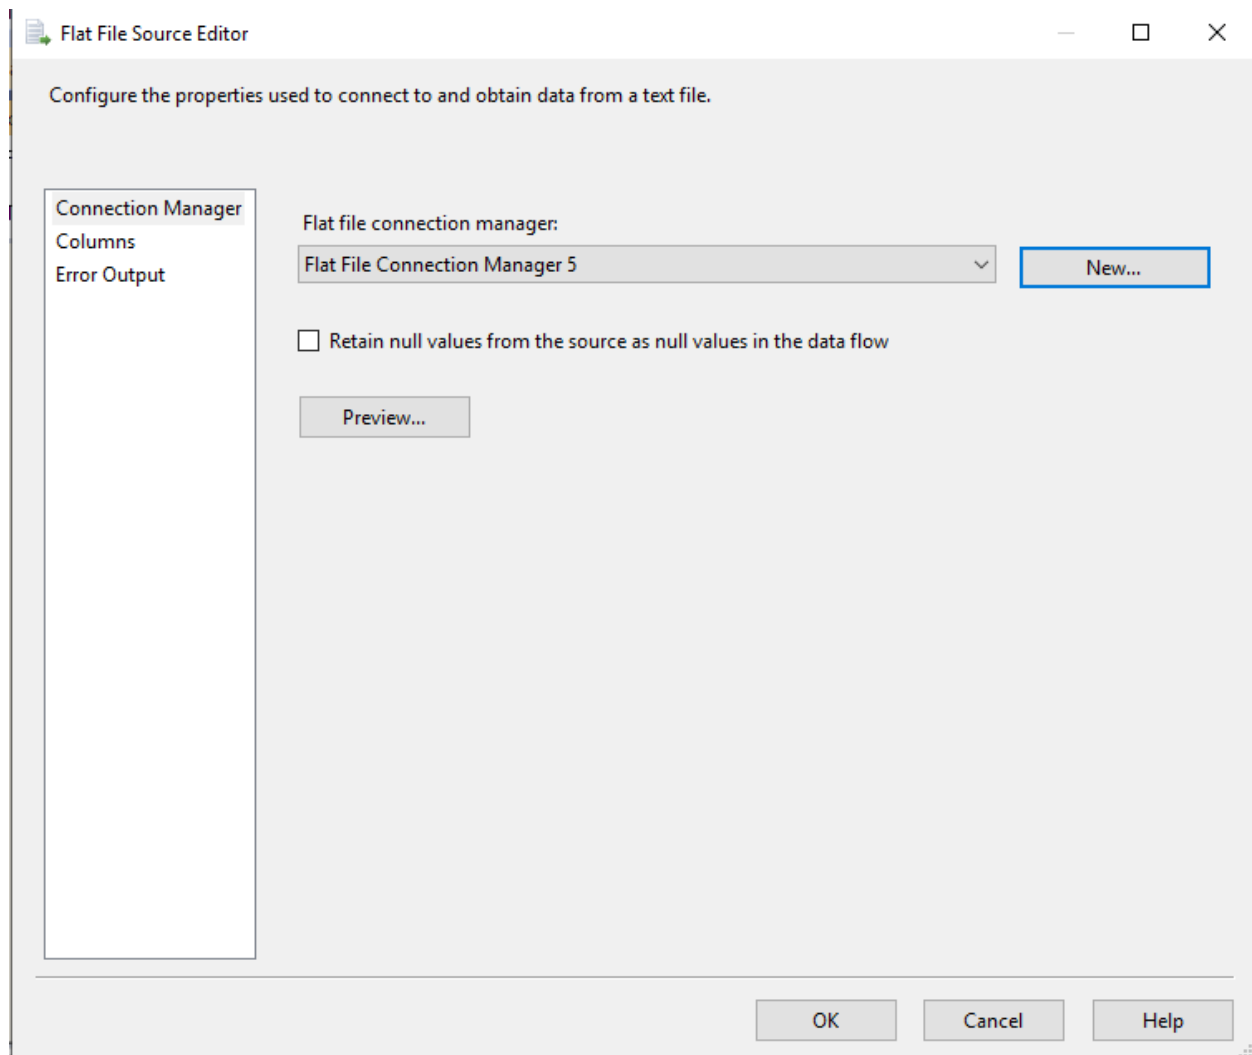

Browse... Build Query... Parse Query

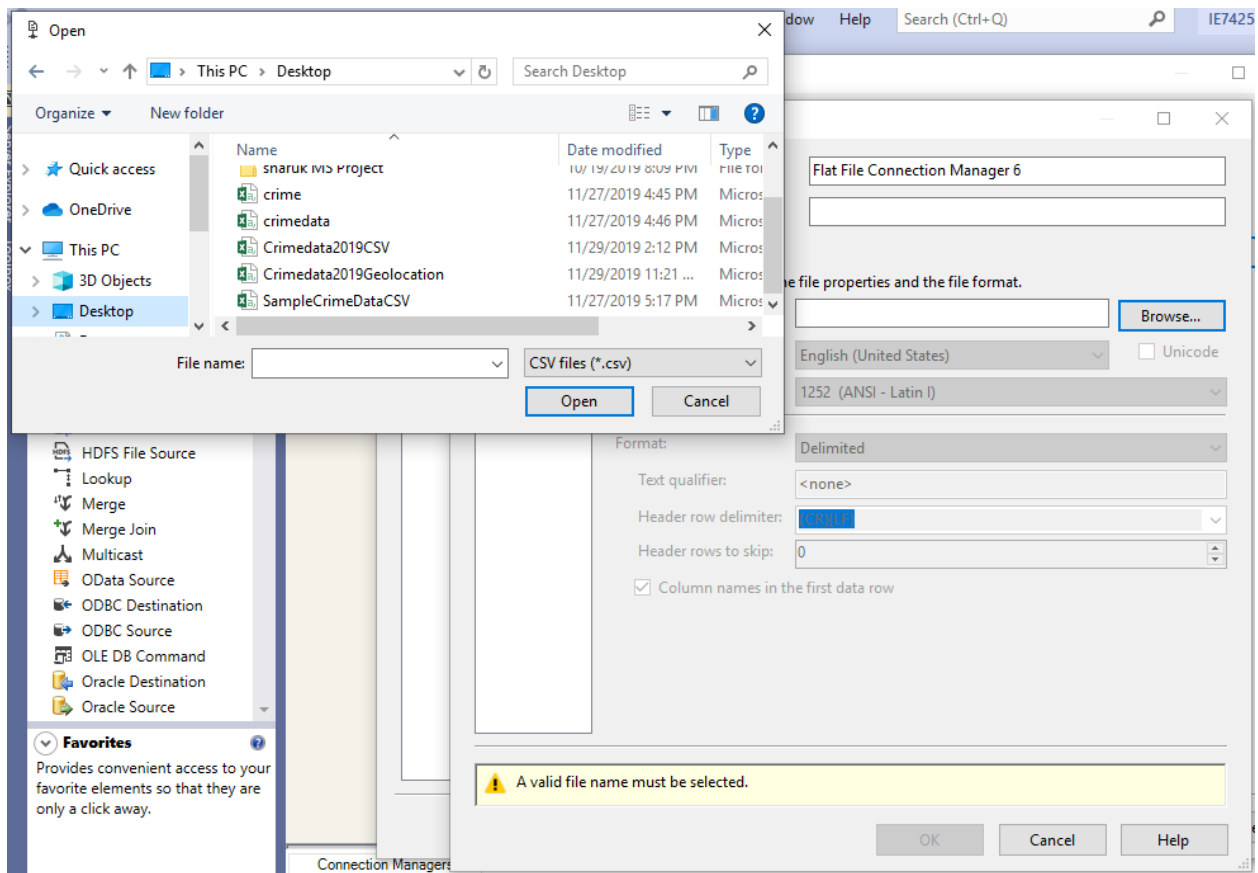

OK Cancel Help

Then double click on your “Data Flow Task” and add a “Flat File Source”:

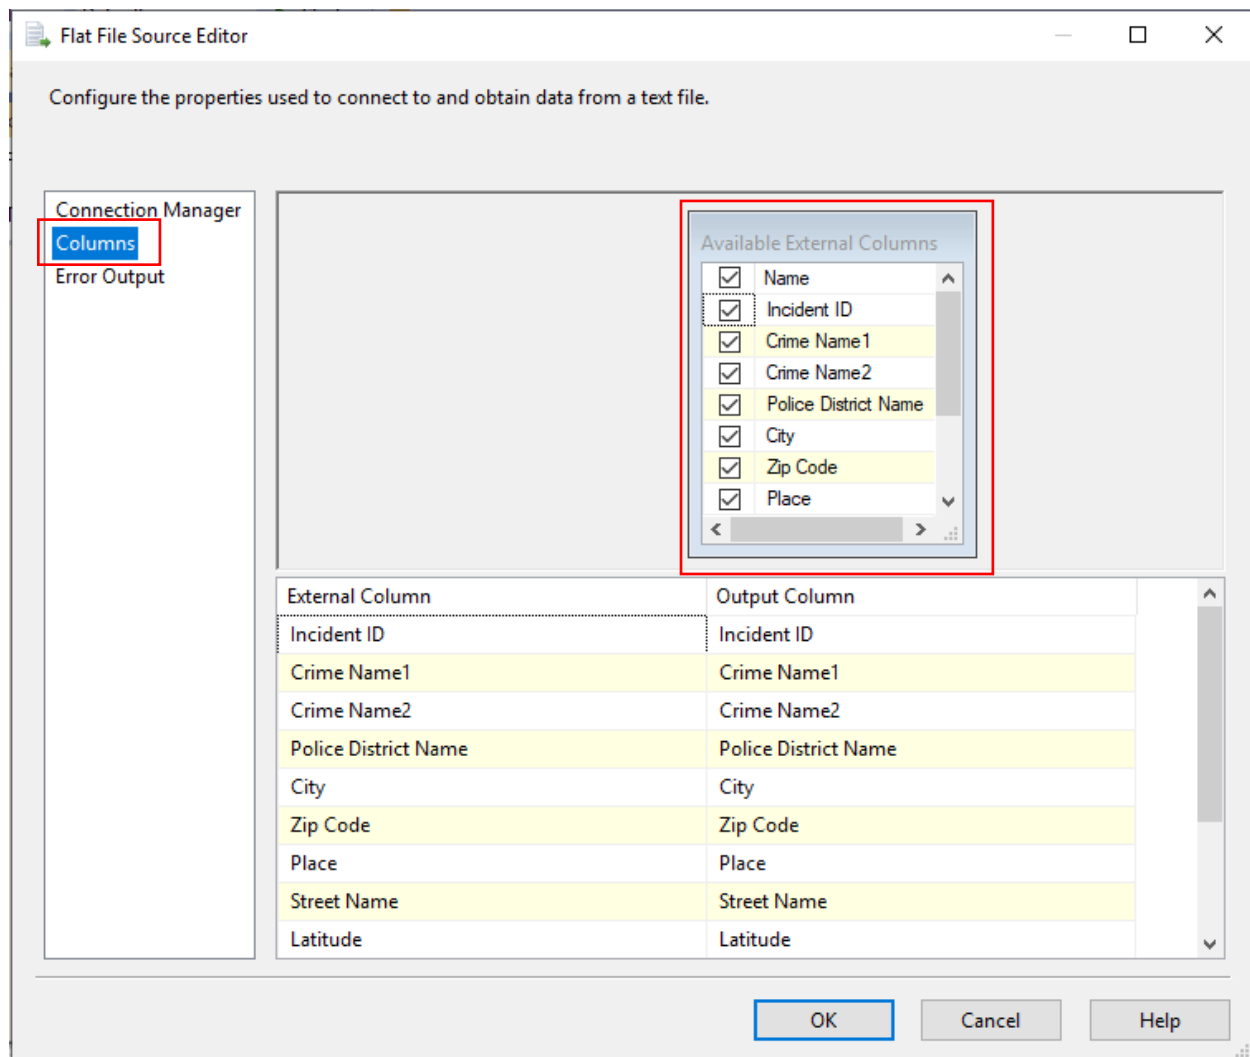

Click on “New” and choose “Crimedata2019CSV” file:

Go to “Columns” and check all the columns from the CSV file and then click on OK:

Data Conversion:

Add a “Data Conversion” from the toolbox, then specify “Output Alias”, “DataType”, “Length”, “Precision” and “Scale” as shown below:

Data Conversion Transformation Editor

Configure the properties used to convert the data type of an input column to a different data type. Depending on the data type to which the column is converted, set the length, precision, scale, and code page of the column.

Available Input Columns

- ☒ Name
- ☒ Incident ID
- ☒ Crime Name1
- ☒ Crime Name2
- ☒ Police District Name
- ☒ City

Input Column	Output Alias	Data Type	Length	Precision	Scale	Code Page
Incident ID	DB_IncidentID	string [DT_STR]	20			1252 (ANSI - Latin I)
Crime Name1	DB_CrimeCategory	string [DT_STR]	50			1252 (ANSI - Latin I)
Crime Name2	DB_Crimename	string [DT_STR]	250			1252 (ANSI - Latin I)
City	DB_City	string [DT_STR]	250			1252 (ANSI - Latin I)
Zip Code	DB_Zipcode	string [DT_STR]	10			1252 (ANSI - Latin I)
Place	DB_Place	string [DT_STR]	250			1252 (ANSI - Latin I)
Street Name	DB_StreetName	string [DT_STR]	250			1252 (ANSI - Latin I)
Police District Name	DB_District	string [DT_STR]	100			1252 (ANSI - Latin I)
Latitude	DB_Latitude	decimal [DT_DECIMAL]			10	
Longitude	DB_Longitude	decimal [DT_DECIMAL]			10	
Dispatch Date	DB_Dispatch Date	date [DT_DATE]				

Configure Error Output...

OK Cancel Help

OLEDB Destination:

Add a "OLE DB Destination" from the toolbox

Connection manager:

In "Connection Manager", specify your destination table which is "CrimeData":

OLE DB Destination Editor

Configure the properties used to insert data into a relational database using an OLE DB provider.

Connection Manager
Mappings
Error Output

Specify an OLE DB connection manager, a data source, or a data source view, and select the data access mode. If using the SQL command access mode, specify the SQL command either by typing the query or by using Query Builder. For fast-load data access, set the table update options.

OLE DB connection manager:
HS-ENGL-J1231G2\SQLEXPRESS.IE7425ProjectDataBase New...

Data access mode:
Table or view - fast load

Name of the table or the view:
[dbo].[CrimeData] New...

☐ Keep identity ☒ Table lock

Maximum insert commit size:

View Existing

OK Cancel Help

Mappings:

In Mappings, map all the input columns to the destination columns in Management Studio:

Click on Run button and then go to Management Studio:

By using the following query, you must be able to see the following data:

Select * from CrimeData

96 %

Results Spatial results Messages

	IncidentID	CrimeDate	CrimeCategory	Crimename	City	Zipcode	Place	Street	latitudi

Add GeoLocation column by using Alter function:

Since we want to use GeoLocation as a Geography data type, we need to add another column by using Longitude and Latitude columns that we previously added them by using ETL. Use the below query for having Geolocation data:

```
ALTER TABLE CrimeData
ADD geoLocation AS geography::Point(latitude,longitude,4326);
```

1- Find all crimes that happened within 1000 meters of Downtown Silver springs:

Create a buffer for a point(Silver Spring downtown) by using STBuffer and find the points within that buffer by using STIntersects:

```
select * from CrimeData where geoLocation.STIntersects(geography::Point(38.9955, -
77.0305, 4326).STBuffer(1000)) =1
```

Results		Spatial results	Messages	Execution plan					
	IncidentID	CrimeDate	CrimeCategory	Crimename	City	Zipcode	Place	Street	latitude
1	201222590	2019-01-10	Crime Against Society	Liquor Law Violations	SILVER SPRING	20910	Parking Garage - County	FENTON	38.99025
2	201238032	2019-05-04	Crime Against Property	Destruction/Damage/Vandalism of Property	SILVER SPRING	20910	Parking Lot - Church	GEORGIA	38.99164
3	201241165	2019-05-26	Crime Against Property	Motor Vehicle Theft	SILVER SPRING	20910	Street - In vehicle	BLAIR MILL	38.98948
4	201241252	2019-05-27	Crime Against Person	Forcible Rape	SILVER SPRING	20910	Bar/Night Club	BONIFANT	38.99441
5	201242337	2019-06-03	Crime Against Person	Forcible Rape	SILVER SPRING	20910	Bar/Night Club	GEORGIA	38.99164
6	201243115	2019-06-08	Crime Against Property	Theft From Motor Vehicle	SILVER SPRING	20910	Parking Garage - County	CAMERON	38.99843
7	201243128	2019-06-08	Crime Against Property	Burglary/Breaking and Entering	SILVER SPRING	20910	Residence -Townhouse/Duplex	WEST	38.99433
8	201243750	2019-06-13	Crime Against Property	Destruction/Damage/Vandalism of Property	SILVER SPRING	20910	Restaurant	SLIGO	38.99021
9	201244448	2019-06-18	Crime Against Person	Simple Assault	SILVER SPRING	20910	Street - Commercial	ELLSWORTH	38.99523
10	201245801	2019-06-28	Crime Against Property	Theft From Motor Vehicle	SILVER SPRING	20910	Parking Lot - Other	COLESVILLE	38.99239

2- Find most frequent crime that happened within 1000 meters of Downtown Silver springs:

```
Select Top 1 Crimename AS [Most Frequent Crime], Count(CrimeData.IncidentID) AS [Number of Cases]
from CrimeData where Crimename != 'All Other Offenses' AND
geolocation.STIntersects(geography::Point(38.9955, -77.0305, 4326).STBuffer(1000))=1
Group by Crimename order by Count(CrimeData.IncidentID) DESC
```

Results Messages Execution plan		
	Most Frequent Crime	Number of Cases
1	Theft From Motor Vehicle	47
